

Presenting...

Roneo **350**

Roneo 350

*THE NEW AUTOMATIC TABLE TOP DUPLICATOR AT ONLY
MANUAL COST!*

Here's an automatic table model duplicating machine that operates as simple as A B C. You get all the advantage of a much larger . . . more expensive power operated duplicator at the cost of an ordinary hand operated machine.

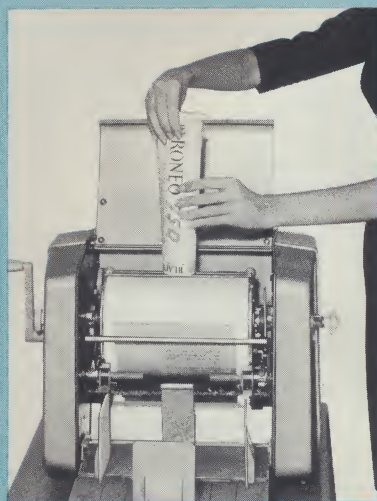

Its low price will delight you . . . and you'll really appreciate how the fully automatic inking system makes it incredibly economical to operate. There is never any mess with the 'clean' Roneo 350 and its compact design makes it ideal for offices with limited space.

Look over the features described on the next page . . . then ASK FOR A DEMONSTRATION right in your own office. You'll see for yourself ALL the outstanding features offered in this precision Roneo 350.

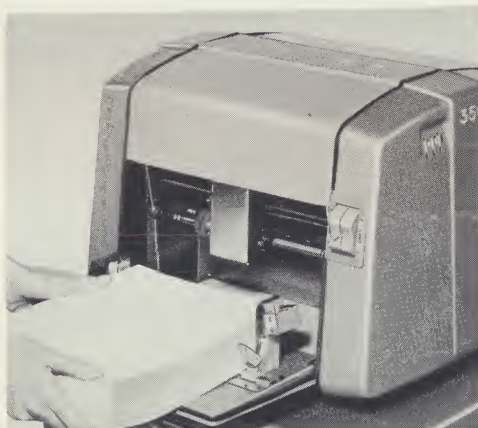

SIMPLICITY OF OPERATION

... CLEAN AND ECONOMICAL TOO:

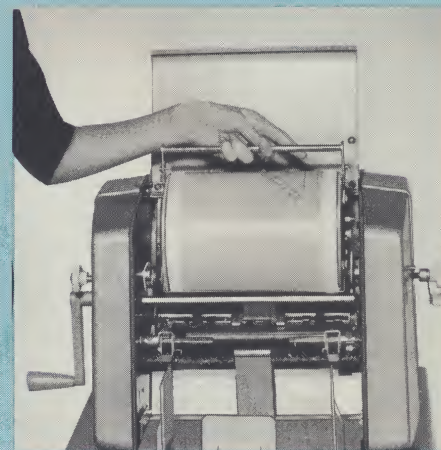

FULLY AUTOMATIC INKING

to every part of the stencil assures utmost economy of ink and paper. You get perfect printing quality without any adjustments by the operator.

FULL REAM FEED

Another '350' time saving feature. The automatic friction feed accommodates a full ream of 500 sheets.

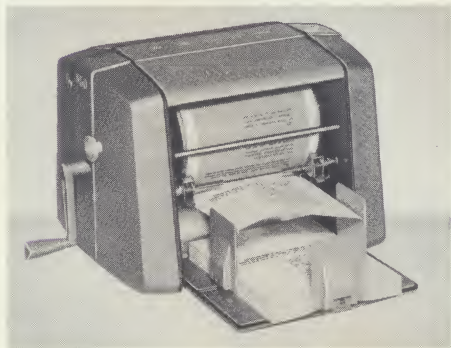

QUICK CLEAN COLOR CHANGE

You can change color in only 25 seconds. Operator's hands stay fresh . . . and there are no messy rollers to clean.

EJECTO-STRIP

This recent refinement of the '350' causes a slight hesitation before each copy drops on the preceding sheet. Combined with fully automatic inking . . . this feature gives freedom from set-off and accurate stacking.

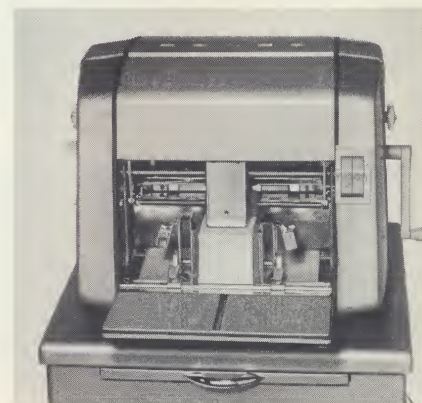

AUTOMATIC PRE-SELECTOR

Just set the counter, switch on and leave. The pre-selector automatically stops the feed at completion of the count.

FEEDS CARDS OR PAPER

The Roneo '350' handles a full range of stock . . . from light-weight paper to cards up to 10" x 14", including single postcards.

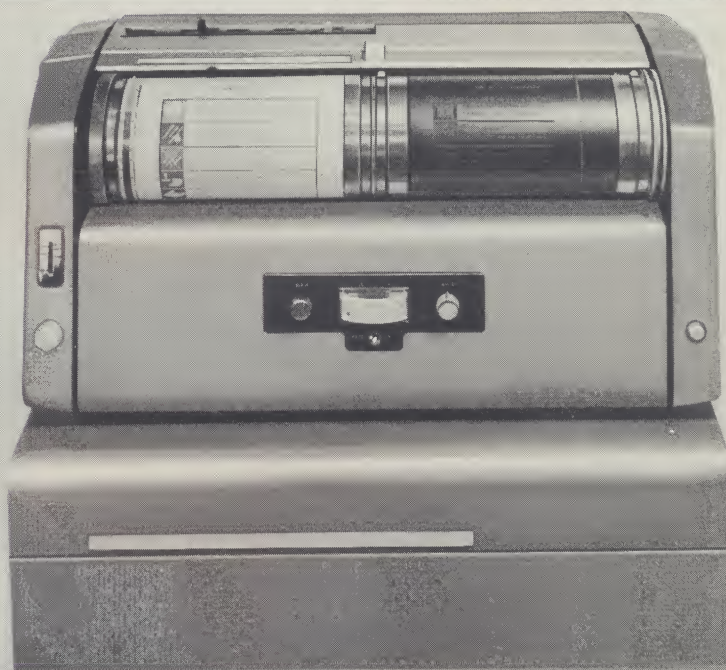

**PRODUCE STENCILS IN MINUTES
with the RONEOTRONIC
STENCIL CUTTER**

NOW . . . you can make your own
stencils . . . AUTOMATICALLY
. . . from just about any original
. . . newspaper and magazine clip-
pings, illustrations, letterheads,
line drawings, charts and graphs,
general printed matter, office
forms, etc.

All you do is place your copy
around the left cylinder and a
blank stencil around the right one.
Turn the switch . . . and that's all
. . . RONEO DOES THE REST.

You get an exact stencil copy
of your original in just minutes.
You're then ready to "go to press."
